

Nitesh Kumar

Senior Software Engineer

Cel: +91-9810354424

Email: me.nkj7@gmail.com

City: Zirakpur, Punjab, India (140603)

Professional Summary

Experienced senior software engineer who is enthusiastic about writing clean, efficient, and accessible code in a functional framework. Committed to the total development lifecycle, maintaining code quality and bug-free applications is paramount.

Skills

Ruby on Rails, Ruby, SQL, JavaScript, Linux, Git, HTML, CSS, AJAX, jQuery, ReactJS, HamI, ERB, Docker, Kubernetes, Microservices, Kafka, Opensearch

Work Experience

Senior Software Engineer Oct 2023 – Present *Employ Inc - Remote Job*

- Upgrade Ruby versions across multiple Rails applications, transitioning from Ruby 2.7 to Ruby 3.2.
- Prioritize enhancing and sustaining current test coverage levels throughout the upgrade process.
- Implement bug fixes and establish monitoring using New Relic to ensure application stability and performance.
- Created custom internal libraries, i.e., gems, to interface with Snowflake via APIs for efficient data retrieval.
- Utilized these custom-built gems to seamlessly fetch and integrate data into dynamic dashboards and detailed reports.
- Engineered a dedicated microservice to streamline operations related to OpenSearch, enhancing search functionalities and optimizing performance.
- The creation of the microservice necessitates the containerization of the application using Docker, coupled with the orchestration capabilities provided by Kubernetes and the management of deployments facilitated by Helm

Software Engineer Mar 2022 – Sep 2023 *Aloha Engineering | Client - Reach24 - Remote Job*

- I actively participate in the development of new features for our applications. This involves understanding the requirements, designing the solution, and implementing the features.
- I create robust and efficient APIs in Ruby on Rails that communicate with the frontend code. This includes designing API endpoints, handling data transmission, and ensuring smooth integration between our applications' backend and frontend components.
- I utilize RSpec, a testing framework for Ruby on Rails, to write effective unit test cases that cover various scenarios and edge cases.
- I actively participate in code reviews within our development team. By thoroughly reviewing the code written by my colleagues, I ensure that our codebase follows best practices, maintains high quality, and adheres to established coding standards.
- I successfully implemented the file upload feature, eliminating the need for Filestack in our project. This decision has not only streamlined our system but also resulted in substantial cost savings for our organization, as we no longer have to make monthly payments for that service.

Ruby on Rails Developer June 2021 – Dec 2021 *Ayam - Freelancing*

- Ayam is a meditation and well-being app aimed at providing a space for self-reflection and personal Growth.
- Implemented various gems and libraries to extend the functionality of Ruby on Rails applications, such as Devise for authentication, Paperclip for file uploads, and Sidekiq for background job processing.
- Developed queries using ActiveRecord and ActionPack for handling HTTP requests and responses. Both gems are shipped in-built with the Ruby on Rails framework.
- Successfully deployed Ruby on Rails applications on cloud platforms like Heroku and handled configuration and scaling challenges.
- Collaborated with the business team to gather requirements and deliver solutions.
- Built and modified APIs to integrate with the Android and iOS front end.
- Implemented push notification systems for Android and iOS using the FCM and OneSignal gems.
- Demonstrated ability to troubleshoot and debug complex issues in Ruby on Rails applications, ensuring smooth operation and user satisfaction.

Ruby on Rails Developer Mar 2020 – Mar 2022 *Relyon Softech Pvt Ltd*

- Relyon Softech is a software company that provides payroll, taxation, and accounting solutions with over 60,000+ users across India.
- Integrated attendance API with biometric machines to automate employee attendance tracking.
- Developed the Landlord's Permanent Account Number (PAN) upload feature for the application to handle annual rent payments exceeding Rs 1 lakh by employees.
- Implemented XML voucher report feature for a client using the Nokogiri gem.
- Proficient in working with background job processing libraries such as Delayed Job.
- Designed and implemented basic programs for projects and enhancements.
- Created test cases using Rspec.
- Served as a primary production bug fixer.
- Experienced in working with Agile Scrum workflow.

Software Development Engineer - I Apr 2019 – Feb 2020 *Nestaway Technologies Pvt Ltd*

- Nestaway is an Indian e-commerce online home rental network.
- Mentored technical support engineers and developed features based on requirements.
- Collaborated closely with the customer care team to meet their needs.
- Conducted code reviews for support engineers.
- Shared knowledge within the team through talks and documentation.
- Worked closely with the QA team to write comprehensive test cases.

Technical Support Engineer - II Apr 2017 – Mar 2019 *Nestaway Technologies Pvt Ltd*

- Trained with software developers to enhance technical skills as a Senior technical support engineer.
- Documented reported issues and created FAQs for recurring problems.
- Wrote Ruby scripts to update data impacted by bugs.
- Assisted other teams in understanding application functionalities.

Technical Support Engineer - I Apr 2016 – Mar 2017 *Nestaway Technologies Pvt Ltd*

- Automated tasks using Ruby scripts.
- Worked with open-source platforms like Redmine.
- Assisted in support hours of operation and handled production emergencies.

Assistant Manager - Operations Apr 2015 – Mar 2016 *Nestaway Technologies Pvt Ltd*

- Generated reports and analyzed data, including revenues and expenses.
- Addressed operational issues promptly.
- Oversaw the furnishing process, vendor onboarding, and management.

Education

Chandigarh College of Engineering and Technology

Additional Skills

- Proficient in MS Office (Word, Excel, PowerPoint).
- Proficient in languages like English, Hindi, and Punjabi.
